① Paramedic Services Incident Data (2017-2022)
- want to see the total number of emergency calls made in each year → each incident that paramedics responded to can translate to a call
- want to further distinguish between calls of different incident types (medical issues, motor vehicle accidents, emergency transfers, fires, and airport standbys)
  ↳ this can' help in understanding what's driving the demand for EMS within Toronto

(PLAN) for each year (2017-2022), want the number of emergency calls for each incident type and the total number of emergency calls

|data| want the data to look like the following table

Year	# Medical calls	# Vehicle Accident Calls	# Emergency Transfer calls	# Fire calls	# Airport standby calls	# unclassified calls	# total emergency calls
2017	—	—	—	—	—	—	—
:	:	:	:	:	:	:	:
2022	—	—	—	—	—	—	—

|graph| want the graph to show the total number of emergency calls and the number of calls for each incident type, excluding "unclassified calls" (this will be mentioned in the description for the graph)

Demand for EMS

● total emergency calls
● medical
● vehicle accident
● emergency transfer
● fire
● airport standby

2017 2018 2019 2020 2021 2022
